

Survey on ESG Awareness & Technology (AI + Blockchain) for Sustainability

This survey is being conducted to understand how college students and people view sustainability (ESG: Environmental, Social, Governance) and the role of technology (AI & Blockchain) in helping global companies manage ESG data.

Your honest responses will help analyze awareness, opinions, and trust regarding ESG and technology. The survey is anonymous and will be used only for academic purposes. Thank you for your valuable time!

** Indicates required question*

1. Name *

2. Age *

Mark only one oval.

☐ 0-18

☐ 19-30

☐ 31-45

☐ 46+

3. Gender *

Mark only one oval.

☐ Male

☐ Female

☐ Prefer not to say

4. Email *

5. Occupation *

6. Have you heard of ESG (Environmental, Social, Governance) before? *

Mark only one oval.

☐ Yes

☐ No

7. How much do you understand ESG? *

Mark only one oval.

☐ Basic

☐ Moderate

☐ Expert

☐ No understanding

8. How important is it for global companies to take care of the environment and society? *

Mark only one oval.

☐ Somewhat important

☐ important

☐ very important

☐ not important

9. Do you think global companies are paying more attention to being sustainable nowadays? *

Mark only one oval.

- ☐ Yes
☐ No
☐ Not sure

10. How often do you hear about global companies sustainability efforts in news or social media? *

Mark only one oval.

- ☐ sometimes
☐ often
☐ rarely
☐ never

11. Which benefit of AI seems the most useful for ESG? *

Mark only one oval.

- ☐ Analyzing large amount of sustainability data quickly
☐ Predicting risks (like pollution or carbon levels)
☐ finding fake or misleading reports
☐ Improving decision-making for sustainable strategies

12. Do companies adopt sustainability mainly to help the environment or for business reasons? *

Mark only one oval.

- ☐ Mostly to help the environment
- ☐ Mostly for business reasons
- ☐ Both equally
- ☐ Not sure

13. Would you support a global company that is eco-friendly even if its products cost more? *

Mark only one oval.

- ☐ Yes
- ☐ No
- ☐ Maybe

14. Do you think companies should use transparent systems (like Blockchain) to prove their sustainability data is real? *

Mark only one oval.

- ☐ Yes
- ☐ No
- ☐ Maybe
- ☐ Not sure

15. Which area of ESG do you personally think needs the most urgent attention *

Mark only one oval.

- ☐ Environmental (climate change, pollution, energy use)
- ☐ Social (employee rights, diversity, community impact)
- ☐ Governance (corruption, transparency, accountability)
- ☐ All equally important

16. What might stop companies from being fully sustainable? *

Mark only one oval.

- ☐ High costs
- ☐ Lack of strict laws/ rules
- ☐ Lack of consumer demand
- ☐ Lack of awareness/ education

17. What do you think is the biggest challenge in making ESG data trustworthy? *

Mark only one oval.

- ☐ Lack of strict rules and standards
- ☐ Data manipulation/ fraud
- ☐ High cost of tracking system
- ☐ Not sure

18. Do you think companies should be punished if they hide or fake their sustainability data? *

Mark only one oval.

- ☐ Yes, strict punishment
- ☐ Yes, but only mild penalties
- ☐ No punishment needed

19. What would make you trust a company's ESG *
(sustainability) efforts the most ?

Mark only one oval.

- ☐ Independent third party audits
- ☐ Proof using technology (AI/Blockchain)
- ☐ Government certification
- ☐ Company's own reports

20. In the future, do you think all companies will need to use technology (like AI/Blockchain) to prove they are sustainable *

Mark only one oval.

- ☐ Yes, definitely
- ☐ Maybe, depends on rules
- ☐ No, not necessary
- ☐ Not sure
