

WEB PROGRAMMING

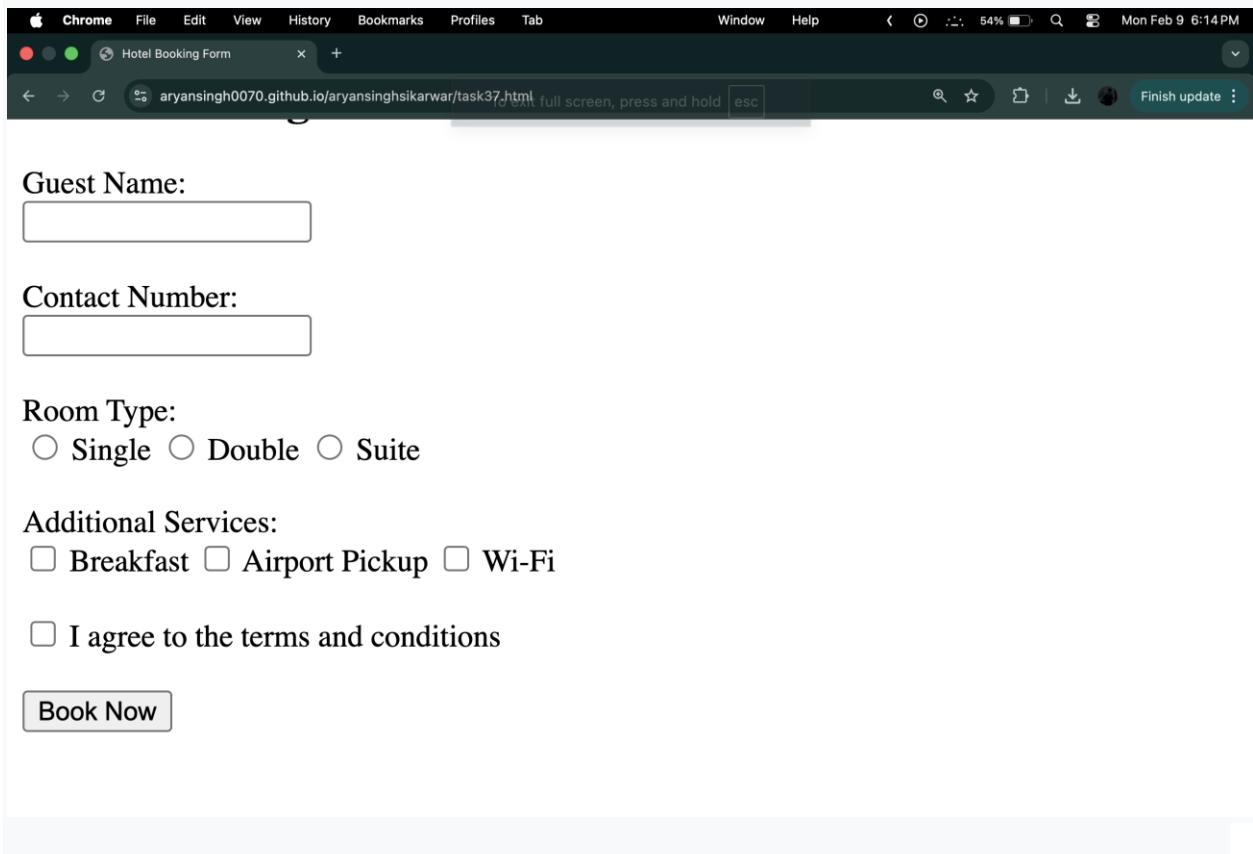

LAB TASK – : 37

NAME:- ARYAN SINGH SIKARWAR

REG NO:- 24BCE0403

TASK:- A hotel booking form collects guest name, contact number, room type (radio buttons), additional services (checkboxes such as breakfast, airport pickup, and Wi-Fi), and a terms and conditions checkbox. Write JavaScript validation to verify that the guest name and contact number are entered, one room type is selected, at least one additional service is chosen, and the terms and conditions checkbox is checked before submission.
