

WEB PROGRAMMING

LAB TASK – : 39

NAME:- ARYAN SINGH SIKARWAR

REG NO:- 24BCE0403

TASK:- Build a login form with username and password fields. Use the `focus()` method in an `input` event listener: when the user finishes typing in the username (e.g., presses Enter or the field loses focus with content), automatically focus the password field. Add visual feedback like highlighting the focused field.
