Question: 01

A man goes 50 Km north , then turned left walked 40 Km, then turned right ? In which direction he is?

- A. North
- B. South
- C. East
- D. West

Answer : **A**

Explanation: 01

5okm-north-->north
left-west--->west
turned right-north--->north

Question: 02

One afternoon, Manisha and Madhuri were talking to each other face to face in Bhopal on M.G. Road. If Manisha's shadow was exactly to the left of Madhuri, which direction was Manisha facing?

- A. North
- B. South
- C. East
- D. Data inadequate

Answer : A

Explanation: 02

In the afternoon the sun is in the west. Hence, the shadow is in the East. Now, East is to the left of Madhuri. So, Madhuri is facing South. Therefore, Manisha, who is face to face with Madhuri, is facing North.

Question: 03

I am facing West. I turn 45° in the clockwise direction and then 180° in the same direction and then 270° anti-clockwise. which direction am facing now?

- A. South-west
- B. South
- C. West
- D. North-west

Answer : **A**

Explanation: 03

North
West ____ | ____ East
|
South

According to given Question,
I am facing West.

$$45^\circ + 180^\circ - 270^\circ = -45^\circ$$

Anticlockwise from initial position. Hence, the required direction is south - west.

Question: 04

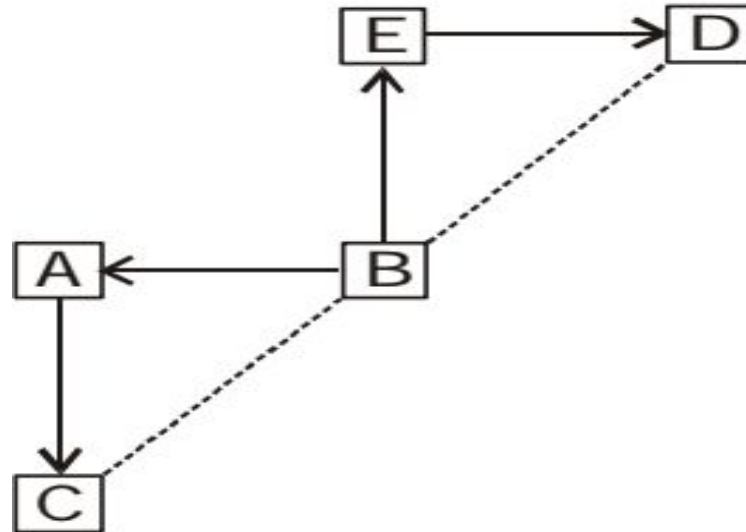

Of the 5 towns A,B,C,D and E situated close to each other. A is to the west of B, C is to the south of A,E is to the north of B and D is to the east of E. Then C is in which direction with respect to D?

- A. North-East
- B. North-West
- C. South-West
- D. South-East

Answer : C

Explanation: 04

Draw a figure as per given instruction in the question. We can see that according to graph Town C is to the south-west of Town D.

Question: 05

Radhika went 50 metres south from her house then turned left and went 20 metres then turning, to north she went 30 metres. In which direction is her home from this point?

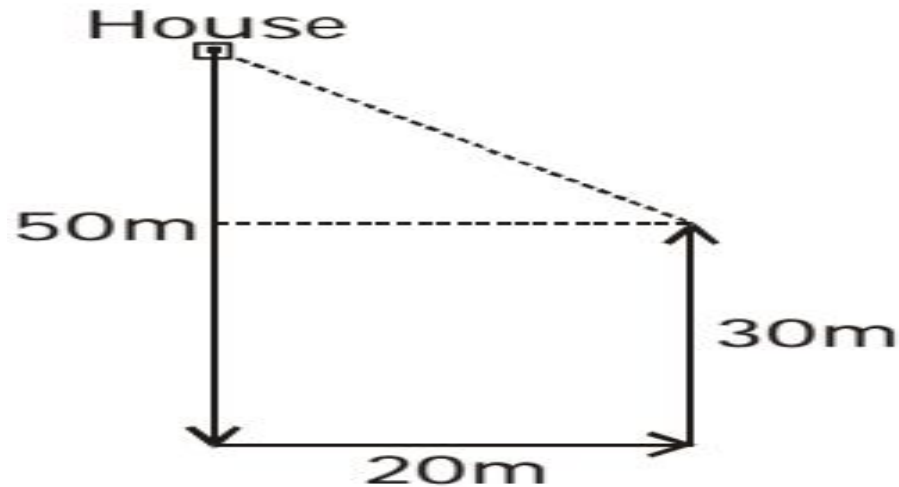

- A. North
- B. South-West
- C. East
- D. North-West

Answer : **D**

Explanation: 05

Draw a figure as per given instruction in the question. We can see that according to graph

Question: 06

A direction pole was situated on the Road Crossing. Due to an accident, the pole turned in such a manner that the pointer which was showing East, started showing South. Sita, a traveller went to the wrong direction thinking it to be West. In what direction actually she was travelling?

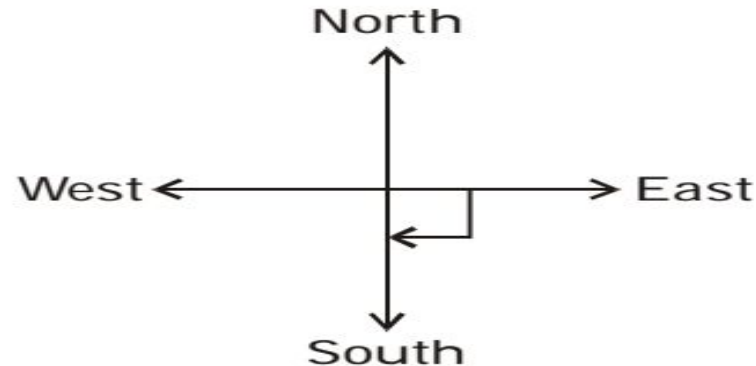

- A. East
- B. South
- C. North
- D. West

Answer : C

Explanation: 06

Draw a figure as per given instruction in the question. We can see that according to graph Due to an accident, the pointer showing East, started showing South. It means, the pole has been rotated through 90° clockwise. So, when she was travelling towards West, actually it was North.

Question: 07

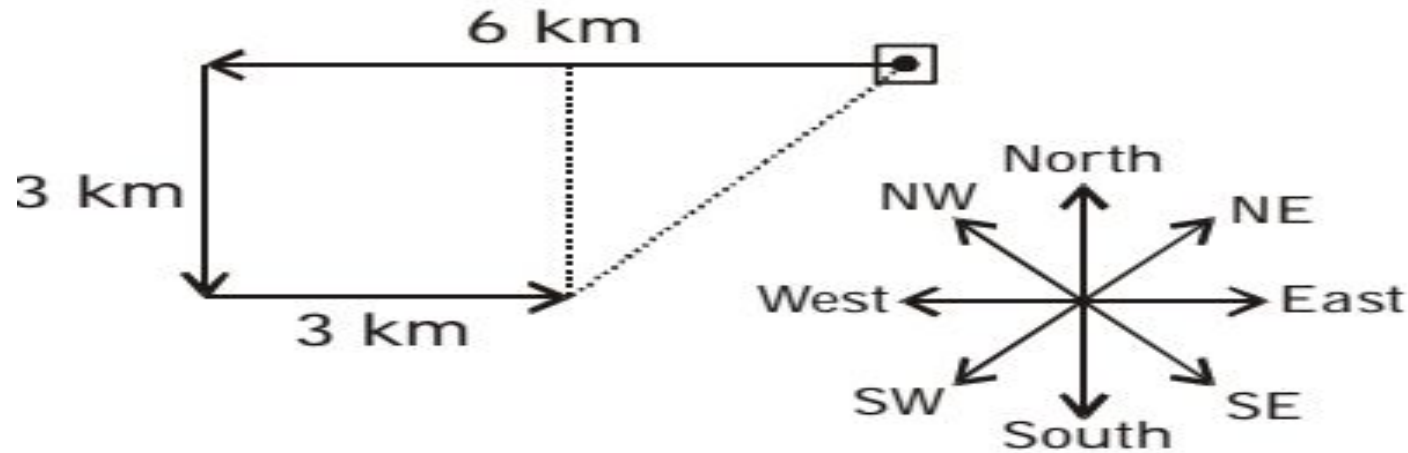

A man drives his car 6 km towards West, then turns left and drives 3 km and again turns left and drives 3 km. Find out the final direction of the man from his original position.

- A. South-West
- B. North-West
- C. North-East
- D. South-East

Answer : **A**

Explanation: 07

Draw a figure as per given instruction in the question. We can see that according to graph the man is to the South West from his original position.

Question: 08

Mr. A travelled from a point 'X' straight towards east at a distance of 80 m. He turned to his right and walked 40 m. He again turned to his right and walked 80 m. He then turned his left and walked 20 m and took left and again walked 80m. Now he turned towards his left and walked 60 m and stopped. How far and in which direction is he from the starting point 'X'?

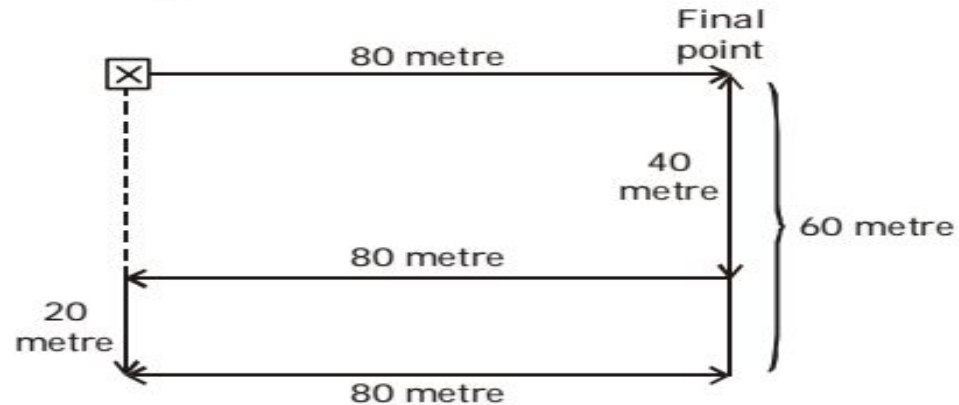

- A. 80 m towards North
- B. 60 m towards East
- C. 80 m towards West
- D. 80 m towards East

Answer : D

Explanation: 08

Draw a figure as per given instruction in the question. We can see that according to graph It is clear from the above diagram that he is 80 meter towards East from the point X.

Question: 09

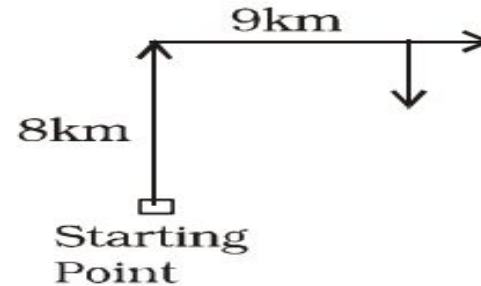

A car travelling from south covers a distance of 8 kms, then turns right and runs another 9 kms and again turns to the right and was stopped. Which direction does it face now?

- A. South
- B. North
- C. West
- D. East

Answer : **A**

Explanation: 09
