		Total Hours	90	

Description of Events

1. Beat the Heat

Beat the Heat was an outreach activity in which the club set up a free lemon soda stall for students on campus. The initiative aimed to offer a simple cooling refreshment during peak afternoon heat while promoting hydration and well-being. Club members managed preparation, distribution, and crowd flow throughout the duration of the activity. The event ran for 3 hours.

2. Maggie Monday

Maggie Monday was a recipe-exchange session dedicated to sharing creative approaches to preparing Maggi noodles. Participants discussed their preferred techniques, ingredient combinations, and variations that reflected personal taste and experimentation. The interactive nature of the event promoted learning and encouraged culinary exploration within a familiar dish format. The session took 4 hours.

3. Say Cheese

Say Cheese was a food photography competition conducted over the week, culminating in a submission and evaluation session. Participants captured images of food that they encountered or prepared, focusing on composition, lighting, and visual appeal. The event highlighted the importance of presentation in culinary arts and promoted attention to detail. The evaluation session lasted 4 hours.

4. Smoothie Saturday

Smoothie Saturday followed a format similar to Maggie Monday but centered around smoothies. Participants shared their preferred recipes, combinations of fruits and add-ins, and preparation methods. The session fostered discussion on nutrition, flavour balance, and creativity in beverage crafting. The event was held for 4 hours.

5. Cloudy with a Chance of Meatball

This event was a relaxed movie night featuring the animated film *Cloudy with a Chance of Meatballs*. Participants gathered for a communal viewing aimed at creating a light-hearted and enjoyable environment. The session encouraged bonding among club members while maintaining a food-themed context. The screening lasted 2 hours.

6. Eggcellence

Eggcellence was a non-flame cooking competition focused on dishes that used eggs as the primary ingredient. Participants were evaluated on creativity, flavour, presentation, and adherence to the no-flame restrictions. The event promoted problem-solving and technique adaptation within controlled conditions. The competition was conducted over 4 hours.

7. Purple Place

Purple Place was a Gravitas event in which each participant was provided with a plain cake and buttercream. They were required to decorate the cake according to a theme or concept of their choice, demonstrating precision, design planning, and artistic skill. The event involved 10 hours of active competition, supported by 5 hours of preparation, totaling 15 hours.

8. Byte to Bite

Byte to Bite was a hybrid culinary–technology event where participants created their own AI wrappers and refined them through prompt engineering techniques. The goal was to generate unique and innovative recipe outputs that reflected both creativity and technical skill. The event combined culinary knowledge with digital tool usage, promoting interdisciplinary learning. It included 9 hours of event time and 6 hours of preparation, totaling 15 hours.

9. SDG: Zero Waste Cooking

Zero Waste Cooking is aligned with sustainability goals by encouraging participants to prepare dishes using ingredients efficiently and without generating avoidable waste. The event focused on responsible culinary practices, mindful planning, and creative utilisation of all parts of the ingredients. The session ran for 3 hours.

10. Masterchef VIT

MasterChef VIT evaluated the creativity, flexibility, and culinary expertise of the contestants by presenting them with challenges without the use of fire, as well as challenges involving the use of flame, during the course of the contest. The contest emphasised the importance of time management, ingenuity using fewer ingredients, and the importance of presentation, all in the quest for the top honour of Best Chefs, as qualifying teams vied for the top prize. The contest was an intense 20 hours, including the overnight night slip preparations, as the contestants were pushed to their limits.

11. Great VIT BakeOff

The Great VIT Bakeoff encouraged participants to go head-to-head in creating their best dessert, offering them the freedom to experiment with unique flavours and ideas. The event worked in batches of three hours, putting the participants' management, flexibility, and proper etiquette while working in a professional kitchen to the test. The outcome was measured by a thorough assessment of the overall taste, texture, creativity, and presentation of the final dish, along with the proper management of a zero-waste workstation. About 8 hours were spent in the event and on event planning.

12. Mocktail Soiree

Mocktail Soirée was a sensory-based beverage mixing challenge that tested two-person teams to recreate a specially designed drink blindly based solely on their senses and ingenuity. Without a recipe and under a tight deadline, the competitors had to rely on their knowledge of ingredients and ingenuity with only the materials supplied. The competitors would be judged on their flavour identification, appearance, flavour balance, and ability to maintain a professional kitchen standard while minimising waste. About 8 hours were spent in the event and on event planning during nightslips.

13. Tea Talks

Tea Talks was an awareness-oriented workshop conducted in collaboration with the Tea Board of India, Ministry of Commerce & Industry, Government of India, focusing on introducing participants to the tea industry through topics such as career opportunities, tea quality, production processes, and global tea culture. Participants engaged in informative sessions and discussions led by industry representatives, which promoted awareness of entrepreneurship and career pathways while encouraging knowledge-sharing among students. The event accounted for 5 hours of participation.
